

Sample Assignment Provided in PAM 201 – Medical Emergencies

PART 1

Writing activity: You will see your name next to a topic. You are responsible for preparing a written paper on causes, signs, symptoms, treatment, and any other related information. **You will have an opportunity to present your findings on Tuesday, September 15th in class.**

Student Name	Topic
Student #1	Cholecystitis and biliary tract disorders
Student #2	Appendicitis
Student #3	Diverticulitis
Student #4	Pancreatitis
Student #5	Crohn disease
Student #6	Acute gastroenteritis
Student #7	Gastroesophageal reflux disease (GERD)

Upload your writing activity to Blackboard by Monday, September 14 at noon in the Assignment section under “Class Assignment for 09/10”.

PART 2

Group activity:

- Group A: (Right upper and right lower quadrant)
- Group B: (Left upper and Left lower quadrant)

Prepare a chart of the type of medical condition(s) associated with that quadrant(s) along with appropriate signs/symptoms. Plan to present your finding in lab on Tuesday, September 15th.

You may choose to upload a powerpoint slide(s) with your information or present your findings in class, written on paper.
